Swopblock Investors,

We're thrilled to share a comprehensive update on our Use-of-Funds roadmap execution. Your support has fueled rapid advancements across the board—from solidifying our core business foundations to pushing toward a groundbreaking ICO and app launch. We're tracking in key areas, and momentum is building fast. Let's dive in.

– The Swopblock Leadership Team

Our 2025 Traction

The wins you've been waiting for:

Swopblock

The Company

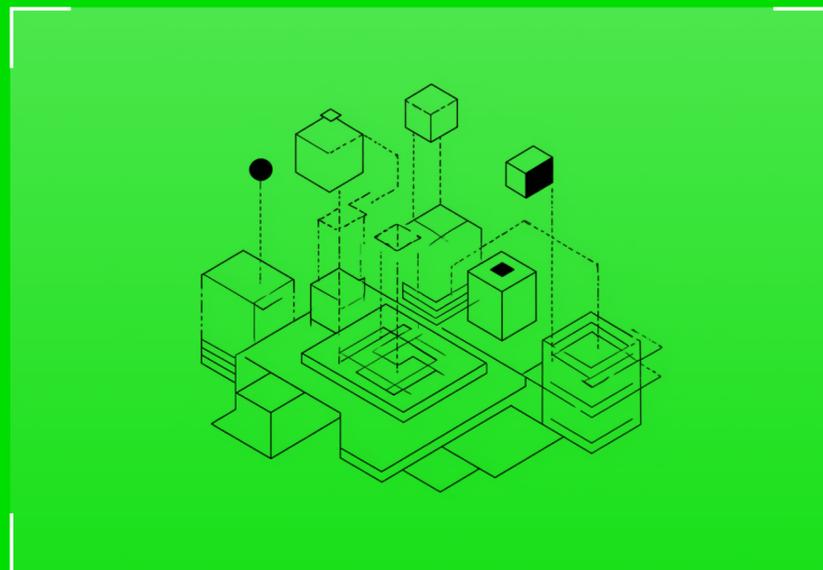

We've locked in a robust business plan that establishes a pioneering legal framework, binding our cryptocurrency (SWOBL) directly to our GAAP-compliant company accounting. This integration not only enhances transparency but also positions us as a leader in compliant, real-world crypto applications. It's a foundational step that de-risks our operations and opens doors for enterprise partnerships.

Swopblock

The Protocol

Excitement is high around our intellectual property pipeline. In the next 3-4 weeks, we'll file a second patent application, delivering the first detailed public evidence of our innovative monetary protocol. This filing will showcase the technical backbone of Swopblock, giving you tangible proof of protocol details and design. Stay tuned—we'll share the abstract and key highlights as soon as it's submitted.

SWOBL

The Crypto

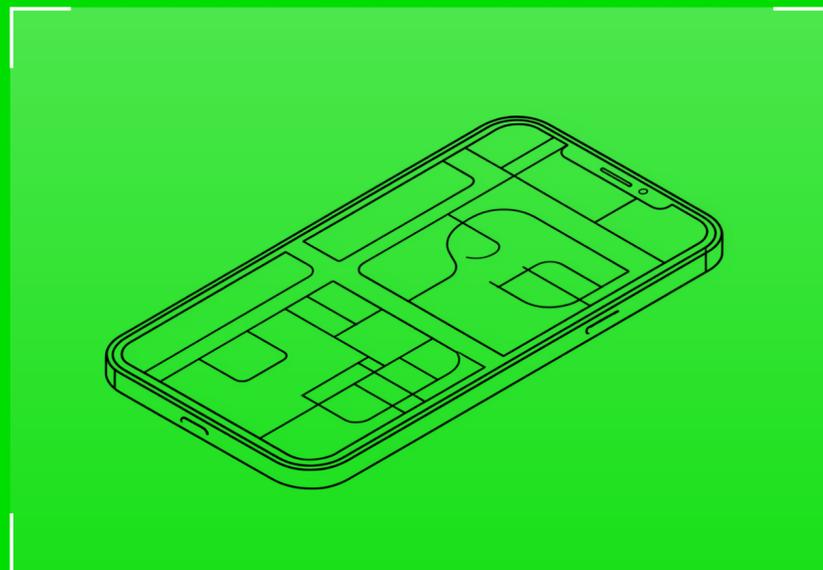

Recent stablecoin legislation has created a perfect storm for our innovation, and Swopblock is primed to capitalize. Combined with our tech-driven business plan and the forthcoming patent, we're set to launch our official ICO in 2026. This isn't just a raise—it's a historic milestone that democratizes access to our ecosystem.

Swopblock

The App

Development on our *MVP* user interface is accelerating. The core build is now live and functional on a Pixel 9a device, with intuitive navigation and seamless performance. We're in the final polish stages and can't wait to give you a firsthand look. Expect a polished software walkthrough/demo video in the coming weeks—delivered straight to your inbox.

Our Q4 2025 Roadmap

What to look out for in Swopblock's immediate horizon:

01

New Patent Filed: IP almost Secured!

- ◆ Deliver the first detailed public evidence of our innovative monetary protocol.
- ◆ Showcasing the technical backbone of Swopblock.
- ◆ Giving investors tangible details and design on our protocol.

02

Phase 1: App MVP User Interface

- ◆ Deploy the latest build to Pixel 9a test device.
- ◆ Video of a demo walkthrough.

App Store Readiness

- ◆ **Initiate Apple Developer and Google Play Console accounts.**
 - ◆ **Create and upload marketing assets for App Store Readiness.**
-

White Paper Refresh Development

- ◆ **Adapt our patent documentation into an investor-friendly 10-page White Paper.**
 - ◆ **Include SWOBL's automated-market-maker chart to illustrate crypto exchange.**
 - ◆ **Distribute White Paper via investor channels.**
-

Business Plan SWOBL Integration

- ◆ Bind our cryptocurrency (SWOBL) directly to our GAAP-compliant company accounting.
- ◆ Organizing our proprietary SWOBL marketing facility into Swopblock's Company Equity Class Structure

Website Redesign & Messaging Refresh

- ◆ Overhaul the site for a robust, investor-focused experience—highlighting our roadmap, patent progress, app demo, development tools, and more!

Our 2026 Vision

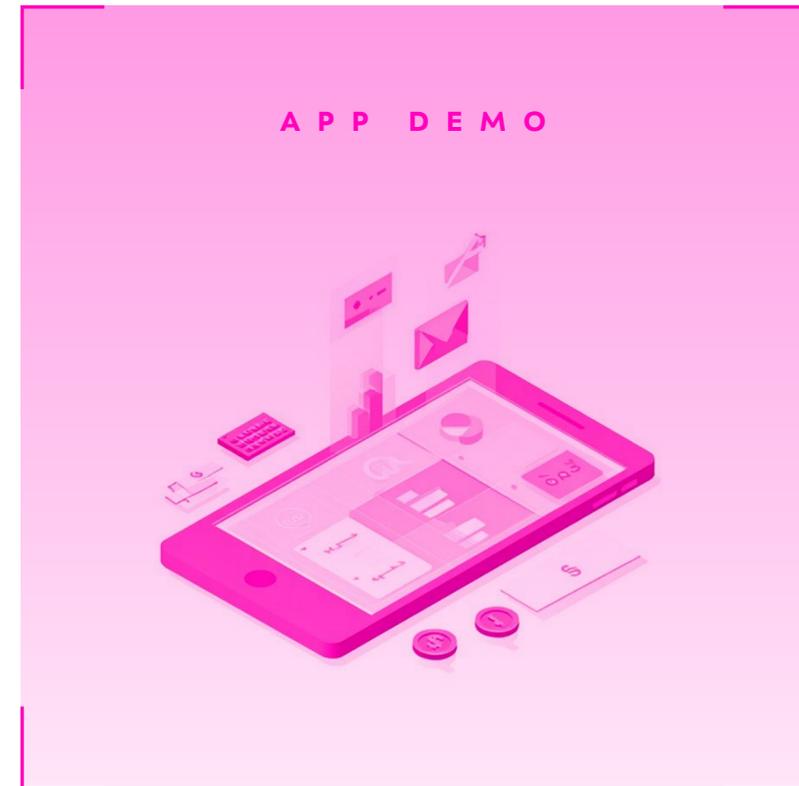

Swopblock's lightyear leap forward:

Your downloadable demo of our app is incoming!

We're on track to release a downloadable demo of our app in 2026, hitting both the Apple App Store and Google Play Store.

This isn't just software—it's the gateway to our full ecosystem, demonstrating our protocol's potential in the area of crypto exchange.

Swopblock's monetary protocol is dawning.

2026 marks a pivotal year for our protocol: With our patent filed and protocol design finalized, we're laser-focused on completing development—the final push toward launch.

This milestone isn't just thrilling; it positions us to ignite widespread excitement, drawing in not only crypto investors but also the open-source developer community.

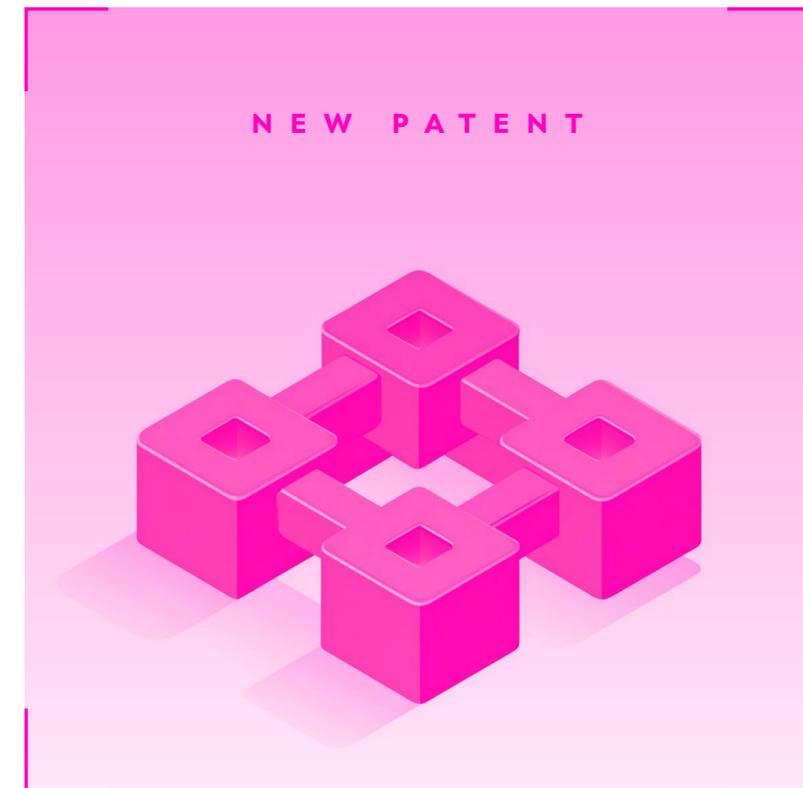

We're securing your stake in Swopblock's innovation.

We're on track for patent issuance in 2026! How? We've qualified for expedited review, "Track 1" [37 CFR § 1.102(e)], which has historically delivered approvals in months, not years!

Securing our IP this swiftly will safeguard our innovation while unlocking full transparency for open-source collaboration and investor confidence.

Incoming regulations will be rocket fuel for SWOBL.

The Clarity Act's passage through the House sets the stage for Senate review and a potential vote as early as Q1 2026.

Once enacted, it'll pave the way for our official ICO, attracting crypto enthusiasts and establishing SWOBL's formal launch and market price.

We're executing with precision and passion, turning your capital into concrete milestones. Thank you for being part of this journey—together, we're redefining crypto's real-world utility.

Onward and upward,

– The Swopblock Leadership Team

How we'll get there...

We are seeking: \$618k

- ◆ Pre-Seed Round 2 via SAFE
- ◆ For Equity + Future Crypto
- ◆ To Finish MVP & Launch ICO
